Planning & Building Services

Dear Planning Commissioners,

Hi! I am Violet and I want NO more plastic. There are too many greenhouses, greenhouse gas, and greenhouse plastic too.

Animals ARE dying from the plastic.

We also are having NOT very much water. What can you do about that water??????

Protect our water that is being taken by the greenhouses that are growing plants JUST for money!!!!!!!

We WILL die if we do not have water.

Thank you,

Violet Gauder, age six, Covelo.
