

Dear Planning Commissioners,

My name is Jen Harness, I'm 12 years old and I live in Covelo my whole life.

I really love animals and nature and I want all animals to have a good home to live. So please don't allow the 10% expansion because that destroys homes for many animals. We hardly can see elks these days, and I would like to have them come back. I recently watched a documentary called My Octopus Teacher, at the end it said, 'Human are not just visitors on earth, we're a part of it,' so please make good decisions so I can still be a part of this beautiful earth.

Thank you for reading my letter.

Sincerely,
Jen Harness
