

Hello Commissioners,

I agree and align with the memo from CCAG.

I agree and align with the memo from CCAG and MCA.

I listened to you at the last meeting. You spoke a lot about renewable energy.
You obviously care about the earth.

So do small, legacy growers and Mendocino County residents.

I am requesting that you align with the memos from CCAG and CCAG/MCA.
They make sense for the county, growers, animals, and the residents.

The migrating animals will be harmed by large expansion.

Our fragile ecosystem will be harmed by large expansion.

Our culture will be harmed by large expansion.

The county will be harmed by large expansion.

And you know this.

Thank you,
Marnie Birger
