Re: Height Variance of the International Institute for Philosophy and Ethics (IIPE)

Attn: Susan Summerford,
Julia Krog

We have lived in Talmage on Mill Creek Road for 40 years and The City of Ten Thousand Buddhas has been an inspiration and important anchor for us over these years. Our children went to school there before getting degrees in the UC university system.

We understand the request for a height variance is to give a substantial and central building on a huge campus, unique in its size and character some semblance of design integrity. We support this height variance application to build a distinctive architectural building that will be an important new institute for education in Mendocino County.

Sincerely,

Alan and Terri Nicholson
