To whom It may concern:

Please deny the current application for a Major Use Permit to operate a Vacation Rental in a single family neighborhood.

Th landlord is absent... there is potential for a lot of disturbance and who will come to help in times of need?

The privacy of the neighbors is gone. If this goes through, they will be subjected to much more noise and traffic and many more people camping in the area.

What about fire danger, water use, sanitation?

What about the fact that more housing is needed for long term members of the community and this action does not help with that intention.

Please consider the surrounding residents and deny the permit.

Sincerely,

Carrie Durkee
