Dear Planning Commission,

I'm writing to express my strong opposition to Case U_2021-0001(Kung) Albion has long been a place of community. Since I bought property here in 1983, my life has been deeply enriched by the depth of long term interconnectedness of its residents. I have neighbors who I watched grow up, and who stopped a small fire on my property from spreading. We know and care for each other because we have lived among each other for so many years. This is Albion. We who have committed so much of our lives and resources to Albion have the right for it to continue to be a residential community. Of course there are always new people who move here, to live here, and we welcome them.

However, Property Development Companies ARE NOT WELCOME! And that's exactly what the applicants are in this case. They have already shown their disregard for Albion residents, by clear cutting on a property they bought and disrupting the privacy of neighbors. They already have proposals to do more of the same. PLEASE stop this in its tracks now! Send a clear message to this, and all property development companies, that Albion is not here to be exploited by big money. We do not need more vacation rentals that disrupt the community, we need more residential housing that sustains the community.

Thank you for taking a stand for the Residents of Albion and Mendocino County.
Best, Barbara Oceanlight
