Re: Rezoning of land for Cannabis Grow

Mendocino County

MAR 21 2023

Planning & Building Services

I am opposed to the rezoning of over 200 assessor parcels of land to allow for a huge Cannabis grow near the vicinity of my neighborhood.

This amount of "grow" seems extreme and will cause multiple problems in our valley, namely a horrible stench so we cannot enjoy our outdoors. Not to mention the increased car, truck, foot traffic, and crime in and around our neighborhood. Also, the huge amount of water that the plants use to grow will suck up our valley water resources (One good rainy season does not mean we are out of our multiple years' long drought).

We have been in our home here for over 30 years and we enjoy our backyard immensely, we moved here because it is quiet, peaceful and has plenty of fresh air. We should not be subject to any intrusions such as the one to be caused by this business, please keep redwood valley residential parcels for residences only.

Thank you,

Chris Oldham
