Planning & Building Services

My name is Bruce Stewart I recently bought property on Road D which is directly above and looks out on Rueben's operation and the vineyard next to it. It is very professionally run and has not caused any issues around noise or anything else for me. I do not think this zoning change makes any sense. The cannabis operation is no more impactful than the many vineyards around here.

I am not opposed to cannabis being zoned where I live and don't find the licensed farm behind my residence to be disruptive or in any way interfere with my use and enjoyment of my home. Furthermore, I think that as a home owner in this neighborhood it is important to encourage farms that have been operational since before I resided here, to allow them to continue to function, given the state of the economy. I believe the farms provide taxes and support to our local community and I believe that licensed cultivation does not cause the problems alleged in this rezoning.

Thankyou for your time and consideration in this matter.

Sincerely,

DocuSigned by:
