---

Date: July 9, 2024

**TO: MENDOCINO COUNTY NEWS MEDIA**

**FR: MENDOCINO COUNTY PUBLIC HEALTH**

**Public Notice:** The National Weather Service has extended the Excessive Heat Warning that began 11 AM Tuesday, July 2nd through 9 PM Friday, July 12, 2024.

On July 1, 2024, Public Health issued an Excessive Heat Advisory to the Ukiah and Redwood Valley areas, where high temperatures are forecast to exceed 110 degrees with limited overnight relief with lows near 70. The rest of the county will also endure severe heat conditions, especially inland areas away from the coast.

This Advisory is being extended with the National Weather Service Warning through 9 PM Friday, July 12, 2024, and is being expanded to include the Round Valley, Sanel Valley and Long Valley regions. While overnight temperatures are expected to be cooler than last week, daytime temperatures in Hopland, Ukiah, Redwood Valley, Laytonville, and Covelo are not forecasted to drop below 100°F until Sunday, July 15, 2024.

The long-term effects of prolonged exposure to high daytime temperatures can increase the risk of heat exhaustion, dehydration and other heat related illnesses. Please be especially mindful of those who have limited mobility or are susceptible to the heat, including children and older adults. It is suggested that individuals attempt to reduce exertion, stay in a cool place when possible and drink plenty of water to stay hydrated.

Mendocino County Public Health is coordinating with the City of Ukiah, the Mendocino County Office of Emergency Services, and the Mendocino County Department of Social Services to monitor the evolution of this Excessive Heat Event and open Cooling Centers as needed.

Mendocino County is not currently under a Red Flag Watch, nor scheduled for a PG&E Public Safety Power Shutoff event.

Public Health will continue to monitor the situation and give updates as needed. For additional preparedness tips and tricks for any emergency, including heat, visit <https://mendoready.org/>
