Dear Commissioners and Staff

As best we can determine from the supplied maps, there is intended removal of trees on our property 31851 S Highway 1, Gualala and that of our neighbors (Fouts/Loxley). We wish further clarification as to which trees are proposed to be removed and INSIST that they do not follow their slapdash removal methods that they have employed on our property in the past.

They dropped a line on our property right along Hwy.1 causing a fire that burned many trees by the Highway. It further killed adjacent trees that are still there as a continuing fire hazard. They did not clean up the mess after the fire and we had to pay for removal of burnt trees that they were responsible for burning.

We request that we be informed of the actual trees they intend to remove and that they remove from our property all parts of the trees down to within a foot of ground.

Thank you for your assistance in this matter.

John Proctor
