January 2026 Children and Youth in Care

<10 Short-Term Residential Therapeutic Program

150 Home-Based Care which includes Tribally approved homes

Home-based care is the preferred option for children and youth. The department works with each case to identify natural supports placing children in the least restrictive environment and, preferably with a relative, family friend, tribally approved home or other familiar connection while maintaining safety.

In some cases, residential treatment is necessary due to mental health and/or substance abuse treatment needs. In these situations, the department works with a treatment team to address these concerns and move the youth to a home-based care setting as soon as possible.

Child Welfare Re-Entry

Re-Entry tracks children and youth who have exited Child Welfare and re-entered within a 12-month period.

The Federal standard is having less than 5.6% re-entry.

2024 5.6%

2023 15.2%

2022 15.3%

Fiscal Year 24/25 Family & Children's Services Funding Sources

Family & Children's Services has increased training on accurate time coding for staff resulting in an increase in State and Health related funding and reducing reliance on Realignment funding.

54% Increase in Health Related Drawdown
23% Increase in State Funding Drawdown

Realignment and Health Funding Year to Year

While all service costs continue to rise, Realignment funding levels have slightly decreased over the last fiscal year. In response, the department is maximizing underutilized funding streams. This has been made possible by increasing training ensuring staff are accurately reporting time spent to the correct time codes. More accurate reporting has resulted in shifting over 3,000 hours to reimbursable activities. Health related reimbursements have historically been underutilized. In FY 24/25, we have seen an increase in Health related reimbursements filling the gap from decreasing Realignment funds.

Leadership continues to monitor time coding and shifting training as needed.
