

STATEMENT OF CANDIDATE FOR
U.S. REPRESENTATIVE IN CONGRESS
2nd DISTRICT

ROSE PENELOPE YEE

Occupation: Business Leader, Community Organizer, Nonprofit Volunteer

Education and Qualifications: Our government should put people before corporations and war profiteers. Washington is failing us. From Marin to Humboldt and across the North State, working families are struggling and priced out of housing. Young people carry crushing student debt. Seniors struggle to make ends meet. Veterans face homelessness, mental health crises, and rising suicide rates. Homeowners are dropped by insurers or hit with unaffordable premiums. Millions delay medical care because they simply cannot afford it. This is not because our country lacks resources. Washington prioritizes corporate interests and war spending. It's time to change that. Every dollar spent on bombs is a dollar taken from healthcare, housing, and our future. I'm running to fight for a government that serves People, Peace, and Planet. **People:** Healthcare and housing are human rights. I support Medicare for All, lower prescription drug costs, strong rural hospitals, workers' rights, and affordable housing. **Peace:** I condemn the genocide in Gaza. We must end endless war spending, abolish ICE, and invest in our communities – strengthening veterans' benefits and Social Security, and supporting small businesses. **Planet:** We face wildfires, floods, and climate disruption. I support major investments in climate resilience, wildfire prevention, and a clean energy transition. I refuse corporate PAC or AIPAC money because representatives should answer to voters only – not foreign interests. Growing up under dictatorship in the Philippines, I know the power of democracy and people-driven change. I will fight for People, Peace, and Planet. It will be an honor to serve you. www.roseforcongress.com
